NOMINATIONS OPEN FOR JUNE & AUG 2019

SKOCH Award makes you work harder

EXHAUSTIVE PROCESS
SKOCH Award process takes three months. Documentation is not for the faint-hearted. Evaluation is on data points. Only nominees that have actually performed phenomenally well, pass through its six steps to finally qualify for the SKOCH Award.

JURY IS REAL
Jury consists of domain experts. Shortlisted nominees make a presentation to a three-member Jury and around twenty peers. Jury scores are averaged. As a key differentiator, token Jury of celebrities who have neither the time nor the expertise to evaluate are not engaged.

FOCUS ON OUTCOMES
Stakeholders, beneficiaries and experts from the sector, all have a say through the voting and evaluation process. Decisions are not opinions. Multi-stage process is difficult to rig. Exhaustive research is carried out. Finally, outcomes don't lie.
