

SELECTION AMONGST 50 SME UNITS OF INDIA FOR WORLD BANK FUNDED PROJECT OF CII
“DESIGN & IMPLEMENTATION OF ENERGY MANAGEMENT SYSTEM (ISO 50001)”

We are proud to announce the selection of **CHEMCRUX ENTERPRISES LIMITED** for the Implementation of **Bureau of Energy Efficiency – World Bank** Funded Project: Implementation of ISO 50001:2018 Energy Management System from among 50 SME Units across the country. To address the continual improvement of energy performance, including energy efficiency, energy use and energy consumption concern of our organization; **CII - Centre of Excellence, for Competitiveness for SMEs** has assigned a unique project fully funded by Bureau of Energy Efficiency and World Bank titled **“Design & Implementation of Energy Management System (ISO 50001)”**

After successful implementation and Certification as ISO 50001 Certified Organisation – our Company would join the elite group of organisations and would be branded as Energy Efficient, World Class and perceived as a reputed organization which is aware of its energy cost, its efficiency and takes pro-active action to reduce the cost of energy. The other expected outcome of the project implementation would be;

- 10 – 30 % Reduction in energy consumption leading to improved productivity and competitiveness.
- Baseline Energy Audit & identification of 10 – 40 energy saving proposals.
- Status as ISO 50001 Certified Unit - the Brand building of the organization.
- A pool of 5 – 10 trained manpower on energy efficient selection, operation and maintenance of plant equipment and machinery.
- Continual and sustainable improvement of energy performance & development of energy policy of the organization.
- Reduce emissions without a negative impact on operations.

Key highlights of the Project – The CII will provide the institutional framework and support system for the implementation and execution of the project in following ways:

- Assistance in establishing, documenting and implementing an energy management system (EnMS ISO 50001).
- Creation of energy and energy management system professionals in the Industry.
- Providing Training as per ISO 50001 internal audit to our energy team and develop them as an Internal Auditors & Energy Efficiency Implementer on ISO 50001.
- Providing design and implementation support to our unit as per ISO 50001 standards to achieve and sustain continuous reduction in energy consumption.
- Provide support to our unit for the Certification on EnMS (ISO50001).
